## Key Stage 1 and Key Stage 2 SATS results 2016

In 2016, the national curriculum levels were replaced with scaled scores in the revamped SATs tests. The results for the school are shown below, with the respective results for our boys and girls also shown against the national figures.

For that year group (Year 6 2015-2016), the boys' collective scores were strong. The girls, several of whom had attained low Key Stage results, continued to require support for their learning needs. They achieved results which were in line with expected progress. This, however, affected our school's overall scores.

The KS1 assessments required the children to be assessed against 'Expected standard' and 'greater depth' criteria.

The Year 1 phonics tests were particularly gratifying for the school, the focused work in that area resulting in scores above the national figures.
