

1. What do you know about computing?

Y1/2 I know I have to choose a safe password. I know we use purple mash. I know people might want to keep their work private and you need to check with an adult if you can go on things like Minecraft – in case someone messages you and says something rude.

4 – I know how to code, I know how to type and know where the letters are. We learn about computing, because it's important in daily life, because everything in life is using online services, like banking.

4/5 – Computing is used for online discussions or work in school. We use it for Doodle and spelling shed. I know you need to keep on safe online and that someone online may not be who they are.

2. Why is computing important?

Y1/2 You might need it for work when you are older. It helps you build up your computer skills.

4 – It helps with many jobs and everyday life as many things are online, not many things are on paper anymore. It's used across the world

4/5 – It is important because we use computing for playing games and doing homework. We may use it for work when we are older.

3. What skills does a computer techy need to have?

Y1/2 You need to learn how to type. You need to know how to use all the buttons. You have to remember how to solve problems.

4 – How to type quickly, manage stress as sometimes it gets tricky and it can get frustrating. You need to understand computer language 'coding'. Problem solving skills when things go wrong.

4/5 – You need to know how to fix the internet if there is a problem. You need to know how to type and read well. You need to be good at solving problems because you get glitches and you need to know how to fix them.

4. What can you do now in computing that you didn't know last year/2 years ago,

Y1/2 I can draw pictures. I am better with the mouse. My typing is faster, because when I first started I didn't know what to do. But now I can do more, I can log in and off quickly and can solve problems.

4 – I am quicker at typing and have new coding skills. I am better at remembering what things to do in what order.

4/5 – I couldn't type. I didn't know how to get on purple mash and my typing is better. I have used the computer for art, English maths and spelling.
